About Solution	Real-Time Air & Water quality monitoring solutions

About CEO Doyeon Pi

1st in Google (2012) and WOWZapp Hackathons (2013). Founded PiQuant Co. (2015). Awards: Seedstars World Innovation (2017), Austrian IT Economy (2018), Bill & Melinda Gates Foundation Partner (2019), KOTRA President's Award, multiple ministerial awards (2020).

Water Scanner

Testing Time 12 seconds

Limit of Detection 10 CFU/ml

Dimension 61*31*99 mm

(Dimension can be reduced if embedded)

AirQuant

Parameters 14 IAQ indicators

Certificates CE, RoHS, FCC, IC, KC, etc.

Dimension Ø153*60 mm

(Dimension can be reduced if embedded)

About the Product

PiQuant provides water quality monitoring for smart buildings and plants, enabling HVAC control with real-time air data for efficient energy use. In water treatment, it tracks E. coli and turbidity, ensuring autonomous operation. This solution reduces energy and emissions in buildings, while its data platform supports unified city monitoring.

Turbidity Meter

Parameters 10 Seconds

Certificates 1 NTU/15ml

Dimension 60*60*60 mm

(Dimension can be reduced if embedded)

Global Experience

Overseas Awards

- In 2017, recognized at MWC 4YFN and Swiss Seedstars for innovation. In 2019, advanced the Gates WASH Project; by 2022, won Select USA Asia-Pacific, and in 2024, earned an Edison Award in Water Treatment.

Overseas Business Cases

- 2022 Participation in London Queen Elizabeth Park Smart Office Construction Project, UK
- 2023 Participation in North Bay City Smart Office Construction Project, Canada
- 2024 Participation in Barking & Dagenham Smart Home Construction Project, UK

About Solution	TVWS G/W, Backpack Wi-Fi, Smart Safety System, TVWS Relay BaseStation, Servers

About CEO Hosang Yoo

Director of Alphawave Research Institute, Senior Researcher at GT&T, Chief Researcher at Dongwon Systems, Doctorate in Electronic Engineering

About the Product

Fixed TVWS Gateway, TVWS Backpack Wi-Fi, TVWS Relay Base Station, TVWS Optimization/NMS/IoT/DDNS Server and App for Smart Village, Public Safety, Smart Construction, Military, Smart City and Mine.

Global Experience

- MOU/NDA with 20 overseas companies
- Expansion into Saudi Arabia, South Africa, Tanzania, and Colombia

Long-Term Growth Potential

First & No.1 TVWS Technology in Korea.

Innonet, Korea's top patent holder for TVWS technology, offers complete solutions from hardware to apps, with expertise verified via government pilot projects.

Domestic/Global TVWS Market Growth

Though still emerging, the TVWS market is growing fast (70%+ CAGR) led by Microsoft and Google. With global project experience, Innonet is poised to lead this expanding sector.

Service Expertise

Innonet specializes in internet and e-learning convergence technologies rapidly growing in developing countries. It also supports public safety, disaster response, and major disaster reduction services in advanced IT nations through TVWS product development, installation, and maintenance.

About Solution	Cap-type drinking water UV sterilizer for preventing infectious diseases

About CEO Oh Hwanjong

Representative of TAB Start-up; won five Ministerial Awards, including the Korea Talent Award; developed a stopper UV sterilizer and ceramic filters from recycled coffee gourds; graduated from the Youth Start-up Academy; holds multiple patents.

CAP TYPE

It sterilizes drinking water inside plastic bottles and inhibits bacterial growth, providing users with water that is safe from microbes.

BOTTLE TYPE

This product is portable like a tumbler and can sterilize not only drinking water but also small items such as masks and baby products.

About the Product

The LADIS cap-type drinking water UV sterilizer has received innovation recognition from the Republic of Korea government and is used in developing and developed countries. It benefits patients in sterile rooms, including those undergoing chemotherapy, leukemia treatment, organ transplantation, and AIDS, allowing them to drink water confidently. Its spread will significantly aid in achieving UNSDGs Goal No. 6 on water and hygiene.

Global Experience

MOU

Certification

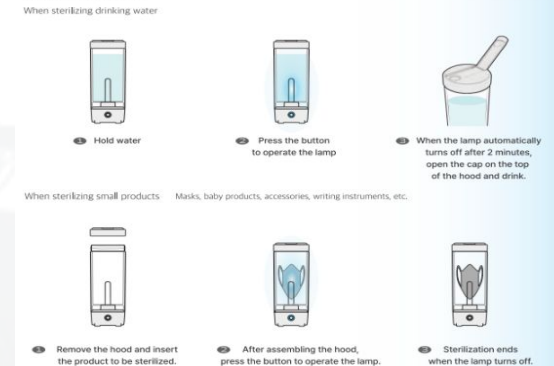

TAB holds national and international certifications for sustainable sourcing of reliable products and services, including KC, CE RoHS, CE EMC, EPA, and FCC, as well as country-of-origin exporter certificates for each item.
